I believe that people are also very happy when they can contribute to protecting the environment.

B: My family and siblings live quite far from me. So I often have to fly to visit them every month when I have time. We really appreciate the time we spend together and we are happy to be able to meet each other and share our new story. I know that traveling by plane too much is not good for the environment so I often shop online or go to work by bike instead of going by car or I reuse plastic bags and paper bags. In addition, I sometimes volunteer to clean up trash in the neighborhood.

C: I was a businessman so I had to fly many times a week. I had to go to other countries to be able to sign wine trading contracts with them. I felt very tired every time I have to fly. Now, my sister and I, whenever we have free time, take the train together and we enjoy that time very much because I can travel while sightseeing and relax without any stress.

D: If I have to go somewhere I will choose other means of public transport, not the plane. C: I'm not sure if I will return to this restaurant. I think the staff was arguing when I got there, because the atmosphere here was not very comfortable. As for the food, I think there's nothing to write about. I ordered fish and chips, it wasn't bad, but it wasn't good either. But many people say that the food here is fabulous. So, I think I'm an exception.

D: I don't understand why this restaurant is so famous. When I arrived and saw a menu with lots of different dishes, I saw this as a bad sign.
